Comprehensive System of Personnel Development

An Effective CSPD

Addresses the following challenges:

- Shortages of personnel
- Need for additional training at both the pre-service and in-service levels
- Discrepancies with state adherence to national competencies and standards
- Challenges faced by ECI personnel due to the diversity of needs and young children served
- Inequities of preparation and compensation among those providing services

An Effective CSPD also

- Coordinates and addresses state needs for quantity and quality of EC personnel and their degree of support required
- Acknowledges the coordination between pre- and in-service personnel development (PD) to ensure consistency of practice
- Stays informed through ongoing evaluation via multiple sources and monitors the results and capacity to implement child and program quality standards

Why do we need a CSPD?

- A CSPD is the primary mechanism by which a state ensures that infants, toddlers, and young children with disabilities and their families are provided services by knowledgeable, skilled, competent, and highly qualified personnel, and that sufficient numbers of these personnel are available in the state to meet service needs.
- An effective CSPD is key to promoting both effective practices and the implementation of legal requirements as determined by the IDEA.

Mississippi

Vision Statement: Mississippi will have a highly qualified and skilled workforce that sustains and improves the functional outcomes and quality of life for all children who qualify for IDEA services from birth to age 5 years and their families.

Mission Statement: The Mississippi CSPD promotes policy to ensure early intervention and early childhood special education professionals are qualified and will advocate for and use of evidence-based practices (such as the *DEC Recommended Practices, 2014*) to provide high quality, coordinated child- and family-centered services for infants, toddlers, and preschoolers who qualify for IDEA services and their families through opportunities and activities in their natural learning environments and daily routines.
